PANKAJ BHATTA

(318) 350-5976 | Monroe, Louisiana | bhatta.pankaj@outlook.com | pankaj-bhatta.com.np | GitHub | LinkedIn

EDUCATION

University of Louisiana at Monroe **Monroe, LA**
Bachelor of Science in Computer Science *Expected Graduation: May 2028*
Relevant Coursework: Programming, Discrete Structures I & II, Computer Organization & Assembly Language, Data Structures & Algorithms, Networks Communication, Management Information Systems, Elementary Statistics, Calculus I, Linear Algebra, A.I.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, SQL, HTML, CSS
Machine Learning/Data Science: PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib, Weights & Biases (W&B)
Technologies & Tools: Databricks, React.js, Next.js, Firebase, REST APIs, AWS, EC2, Git, Linux, Figma, Netlify, Vercel, SDLC

EXPERIENCE

IT Support Analyst / Technician *Feb 2026 –Present*
University of Louisiana Monroe — IT Helpdesk

- Delivered 100+ hours of technical support to students and faculty, resolving issues related to computers, printers, software, and network connectivity.
- Resolved 100+ technical support tickets through in-person and phone assistance, ensuring fast troubleshooting and maintaining a 95% user satisfaction rate.
- Assisted 200+ students and 50+ faculty with account setup, password resets, system imaging, and domain/network configuration across the main campus.

Web Developer & Computer Teacher *Jan 2024 – Jul 2024*
Lok Aadarsha Academy, Kathmandu, Nepal

- Improved student pass rates by 45% by designing structured lesson plans and assessments for 100+ students.
- Delivered and launched a production website laa.edu.np, increasing online inquiries by 25% and streamlining parent communication.
- Led curriculum improvements using interactive and collaborative teaching methods that significantly increased classroom engagement.

PROJECTS

Campesh | *React, Firebase, JavaScript, HTML, CSS* | Website *May 2025 – Present*

- Designed and built an end-to-end social platform for college students, owning the full SDLC from system design to deployment.
- Implemented real time community features including authentication, private access control, posts, comments, and notifications using React and Firebase.
- Validated product usability with 50+ student users, iterating on UX based on feedback and improving engagement and feature clarity.

ASL Sign Language Recognition System | *Python, PyTorch, OpenCV, Streamlit* | GitHub *February 2026*

- Built an end-to-end machine learning pipeline to classify 24 American Sign Language hand signs using the Sign Language MNIST dataset (27k+ images).
- Developed and compared Random Forest (82.5%), MLP (84.2%), and CNN models, achieving 100% test accuracy with a custom Convolutional Neural Network.
- Executed an image preprocessing pipeline using OpenCV including thresholding, morphological filtering, hand-region cropping, and normalization.

CERTIFICATIONS

- Databricks Certified Generative AI Engineer Associate
- AWS Certified Cloud Practitioner
- Google Analytics for Beginners
- AWS Certified AI Practitioner
- Cybersecurity Fundamentals for Beginners EC-Council
- Fundamentals of Digital Marketing (Google)

LEADERSHIP & ACTIVITIES

Nepalese Students Association — Freshman Representative | Led cultural & social events. *(Aug 2024 – May 2025)*
Nepal Red Cross Society — Life Member | supported earthquake relief operations, aiding 1,000+ families. *(Jan 2023 – Present)*
DevDays HealthTech Challenge — Top 10 Finalist for HealthTech innovation, *Baton Rouge, LA.* *(Nov 14, 2025)*
